## 01 fabric creation & design

**Sustainable Fabrics :** Choose from organic cotton, recycled polyester, bamboo blends, or fabrics made from regenerated fibres, providing a balance of comfort, durability, and environmental responsibility.

**Natural Stretch:** Incorporate natural stretch fabrics, offering greater freedom of movement for active students, perfect for both classroom and playground settings.

**Child-friendly Garments:** Materials are soft, hypoallergenic, and safe for young skin, ensuring maximum comfort. We offer anti-microbial treatments to prevent the growth of bacteria, keeping uniforms fresher for longer.

# customisation

## 01 fabric creation & design

**Moisture wicking technology:** Sustainable, moisture-wicking dry-fit fabrics are available for PE kits and tracksuits, ensuring comfort, breathability, and durability during sports activities.

**Durability:** Natural stretch materials offer flexibility and comfort, while reinforced seams and easy-care features ensure long-lasting durability. Available in eco-friendly fabrics that promote sustainable production practices.

**Eco-friendly:** Sustainable, breathable socks crafted from organic cotton or recycled fibers are paired with shoes made from eco-friendly materials like vegan leather, combining durability with environmental responsibility.

## 03 branding

### Embroidery & Printing

School logos, house names, or crests can be embroidered or printed using sustainable inks and fabrics. Choose sublimation on recycled materials for vibrant, full-color designs that support eco-friendly initiatives.

### House Colors & Sports Garments:

PE uniforms and sports kits can be branded with house colors and names, using eco-conscious embroidery or screen printing. Sublimation on sustainable fabrics offers bold, long-lasting designs for team uniforms.

### Trainers & Shoes:

Trainers can be customized with school or house logos and made from eco-friendly, vegan materials, providing a sustainable option for everyday wear and sports.
